GREEN HORIZONS WEBINAR SERIES

EU Vision for Agriculture and Food

Farmers perspectives

26 JUNE 2025

16:00-17:00 CEST | 15:00-16:00 GMT

ONLINE

Housekeeping

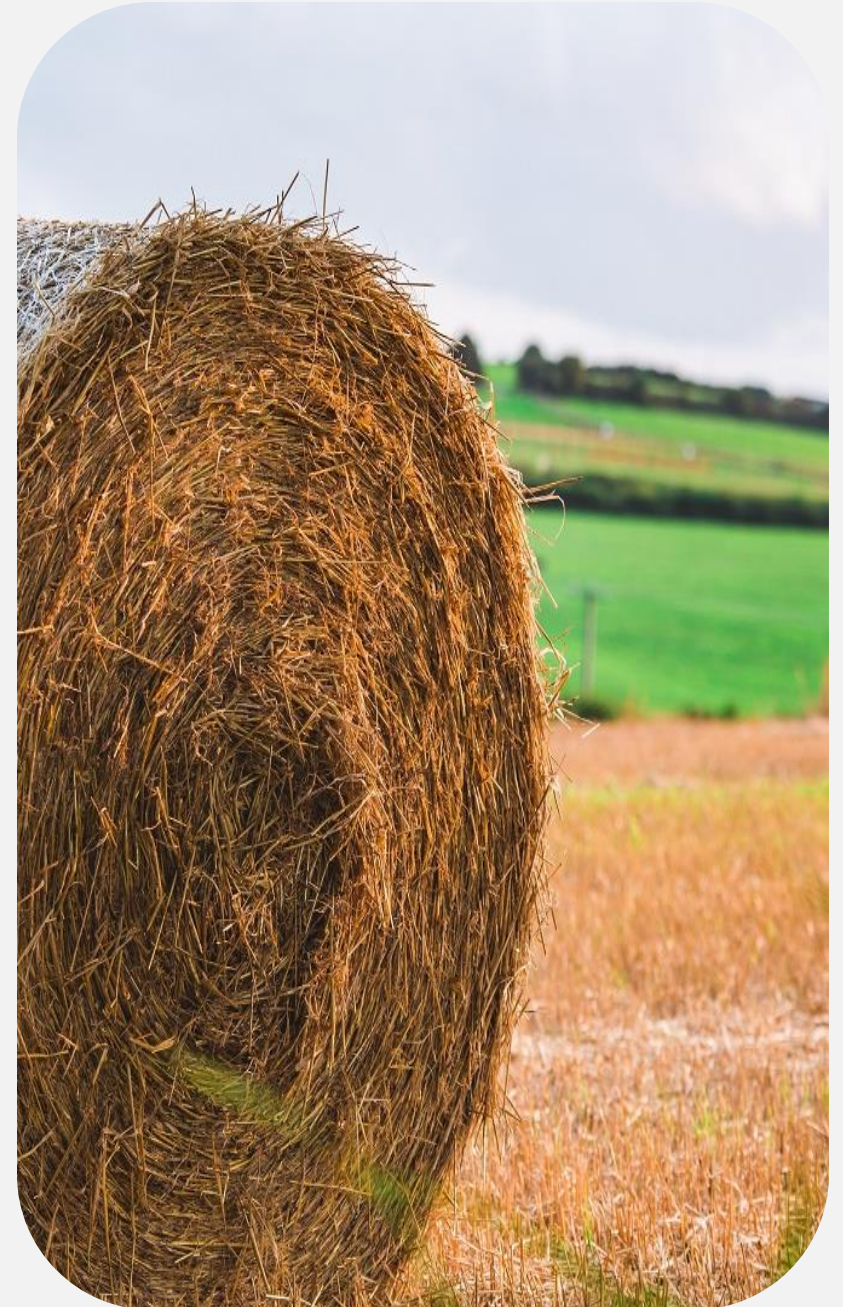

- This session is being recorded.
- Recording and slides will be available on our website.
- Questions are welcome, we will address some as part of the panel discussion.
- Please share your feedback with us at the end!

Agenda

- Welcome
- Presentation on EU Vision for Agriculture and Food
- Invitation to our Green Horizons network
- Farmer perspectives (incl. Q&A)
- Feedback and close

Our next webinar

Digging into soil health: policy and practice

Thursday 17th July, 16:00-17:00 CET

Scan the QR code to register:

Today's special guests

Pasquale Di Rubbo
DG AGRI, European
Commission

Karol Kissane
Dairy farmer &
Head of Economics,
IFAC Ireland

Dimitris Antonopoulos
Farmer, Greece

Saskia Keesstra
Climate KIC

Tessa Finch
Climate KIC

Topics of interest from our audience

- Irrigation
- Biodiversity
- Plant-based production
- Engagement of Younger Generations and Students
- Trade offs between sustainability and productivity
- Funding challenges & options for Regenerative Agriculture
- How does the EU Deforestation Regulation affect farming
- Agrovoltaic systems
- Engagement with UNDP's Consciousness in Food Systems

AN INVITATION: The Green Horizons Farmer Network

- European network
- Farmers with an innovative mindset
- Transition to sustainable and climate-smart agricultural practices
- Help to mitigate barriers to adapting to climate change
- Make voices and experiences heard to shape better agricultural policy.

Why? Learn and share new tools and innovations

- Access knowledge, tools and pilot results from climate-smart agriculture projects across Europe
- Learn from peers' experiences
- Ask for specific capacity building resources relevant for your region or farming sector
- Follow webinars and join workshops with experts and peers

Why? Raise your voice

- Share your experiences, challenges and ideas directly on the platform.
- Influence the topics, tools and training offered, shaped by the real needs of the field.
- Participate in surveys and open calls to co-create solutions with the community.
- Your voice helps guide innovation, policy input, and practical support for agriculture.

Why? Connect with European initiatives

- Link your farm or advisory work with major EU research and innovation programmes such as Horizon Europe.
- Access knowledge, tools and pilot results from climate-smart agriculture projects across Europe.
- Discover opportunities for collaboration, funding and participation in trials or innovation networks.

How can you get involved?

F1 – Face-to-face commitment (tailor-made material) for 3 selected regions

Where: Greece, Poland, Spain

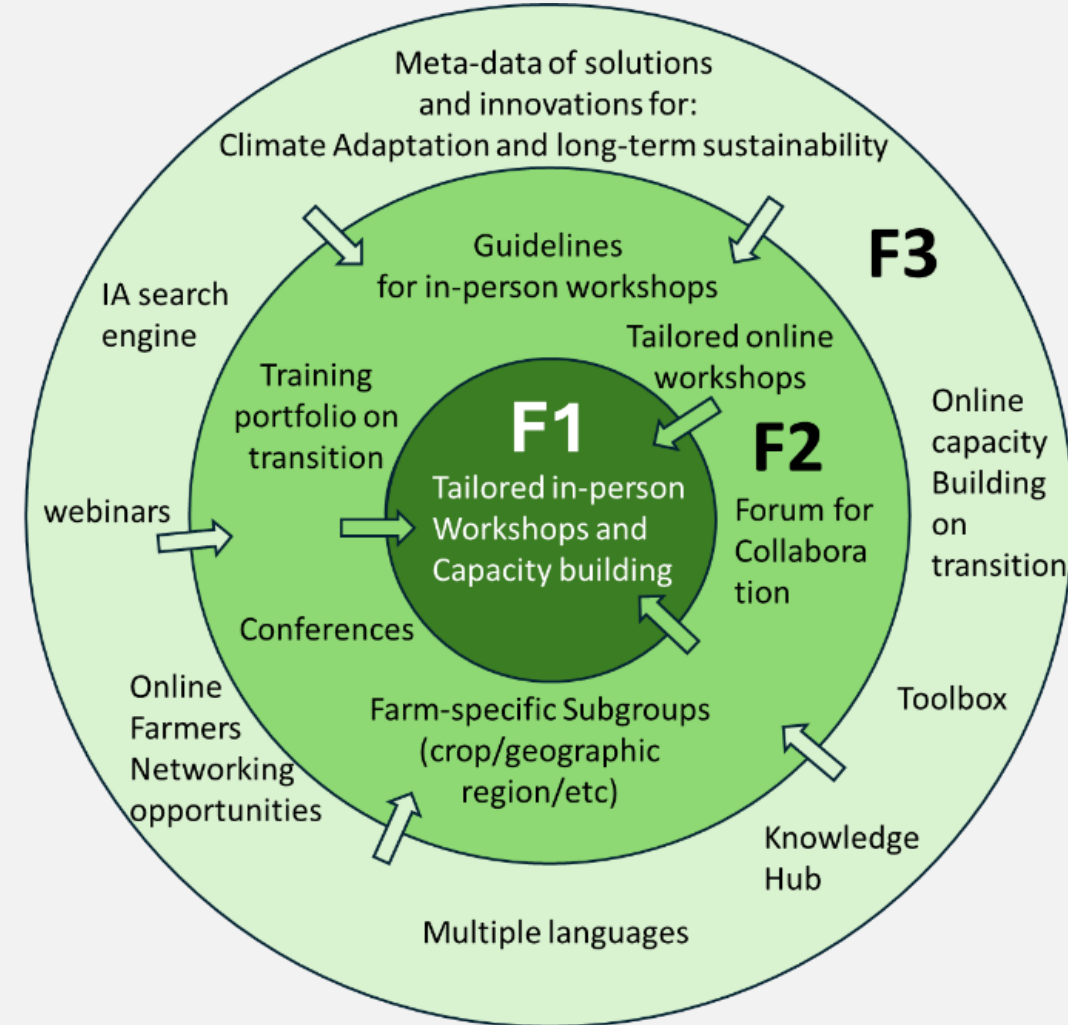

To test and refine our methodology

F2 – Training and support modules for trainers

Where: regions across Europe to upscale our methodology and generate wider interest for the farmers network

Who: farmer's advisor, a representative of a farmers' cooperative or association, a landscape manager
(please tell us if you are interested to participate)

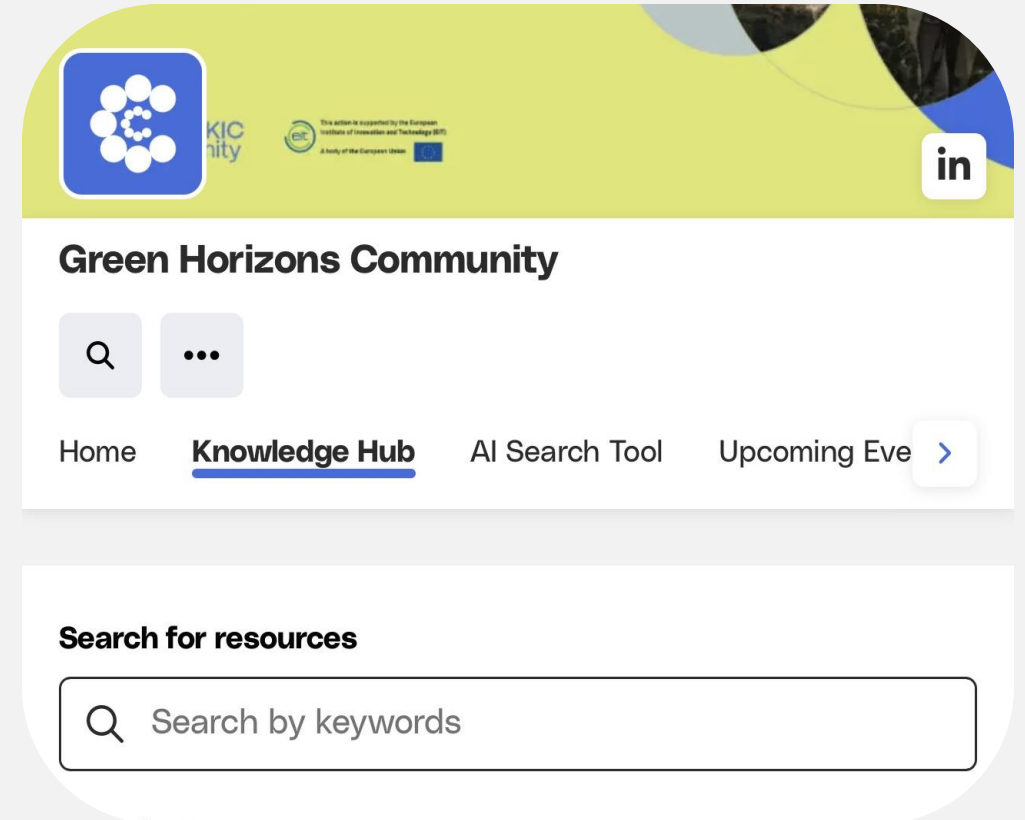

F3 – EU-wide online platform for all farmers across Europe

Online platform: find information

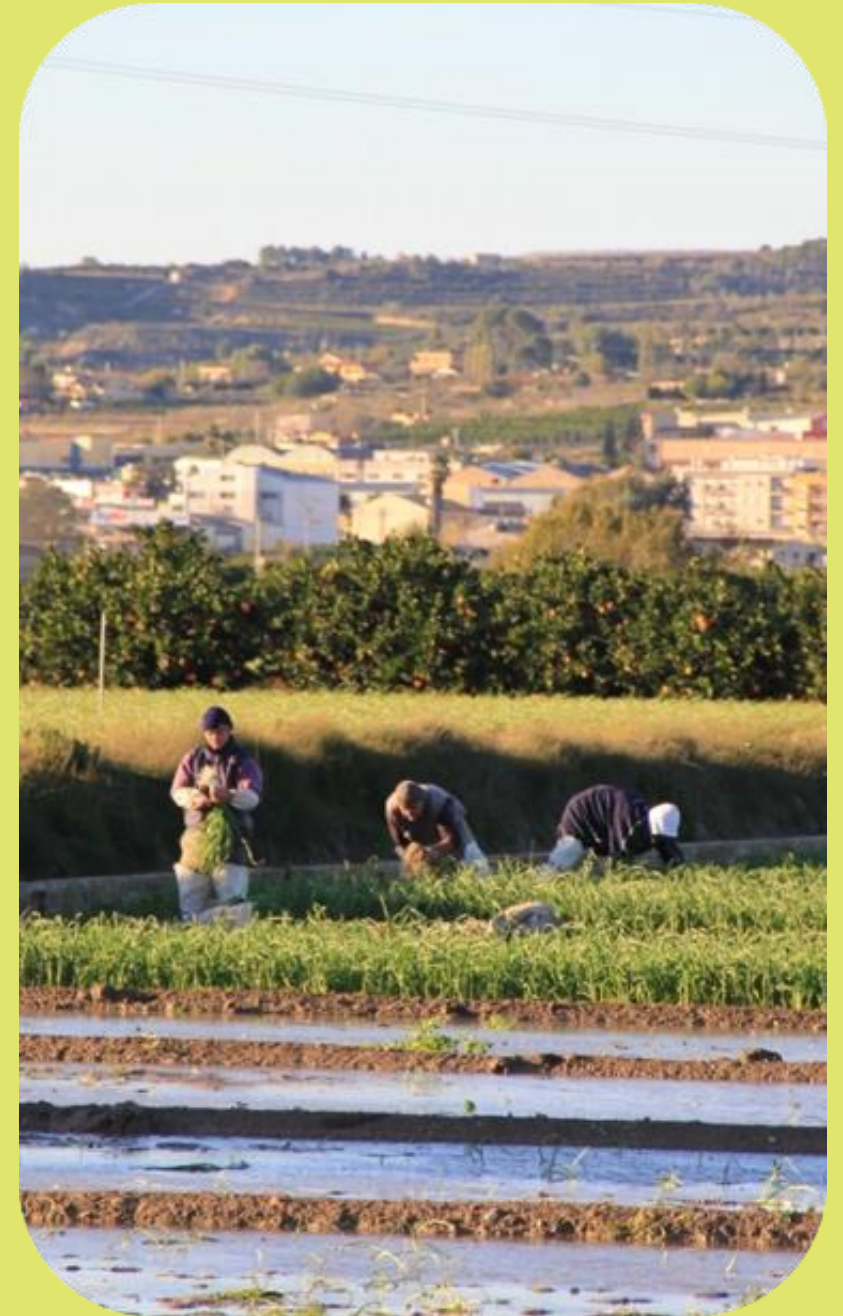

1. Knowledge hub: database with useful links to existing toolboxes and solutions and innovations for climate adaptation and long-term sustainability
2. AI search engine for Q&A in different languages
3. Recorded webinars with option to select subtitles in preferred language
4. Capacity building modules on transition subtitled
5. Funding opportunity links for farmers at EU and national levels
